Russian military deception, sometimes known as maskirovka (Russian: маскировка, lit. 'disguise'), is a military doctrine developed from the start of the twentieth century. The doctrine covers a broad range of measures for military deception, from camouflage to denial and deception.

Russian military deception - Wikipedia

Military camouflage as a form of visual deception is a part of military deception. Some Allied navies during World War II used dazzle camouflage painting schemes to confuse observers regarding a naval vessel's speed and heading, by breaking up the ship's otherwise obvious silhouette.

Deception - Wikipedia

Camouflage, in military science, the art and practice of concealment and visual deception in war. It is the means of defeating enemy observation by concealing or disguising

installations, personnel, equipment, and activities. Conventional camouflage is restricted to passive defensive measures.

Camouflage | military tactic | Britannica

In the natural world, camouflage is no joke but a matter of survival. Its dictionary definition is 'a set of methods of concealment that allows otherwise visible objects to remain unnoticed by blending with their environment or by resembling something else'.

The art of camouflage in nature - Getaway Magazine

Camouflage is an art which is the natural outgrowth of our instinct for concealment and deception when pitting our wits against those of a crafty prey or enemy. It is an art older than the human race, for its beginnings may be traced back to the obscurity of the early ages of the evolution of animal life.

Chapter 15 - Camouflage: In Nature

In 1939 a group of artists, designers, architects, scientists and military experts met in Sydney, Australia, to discuss the impending war. Convinced that the need for regional innovations in the military science of concealment and deception was urgent, they nominated a zoologist to lead a campaign to camouflage Australia. Camouflage Australia tells a once secret and little known story of how ...
