Discourse Completion Task (DCT) Assessment This paper proposes a prototypic assessment tool for intercultural communicative competence. Because traditional discourse completion tasks (DCTs) focus on illocutionary competence rather than sociolinguistic competence, a modified version of a DCT was created to target sociolinguistic competence.

Discourse Completion Task Dct Assessment - wakati.co

A discourse-completion task consists of scripted dialogue representing various scenarios, preceded by a short prompt describing the setting and situation. The prompt usually includes information on social distance between participants and pre-event background to help the participant construct the scenarios. The DCT in prosody research

Discourse-completion task - Wikipedia

This chapter explores the data collection method known as a discourse completion task (DCT), a production questionnaire in which the participant responds to a given prompt. DCTs elicit response from some kind of situational prompt, but there are variations in the way the prompt is framed, the detail of the situation or context provided, and the response required.

Discourse Completion Tasks - Research Methods in ...

This paper proposes a prototypic assessment tool for intercultural communicative competence. Because traditional discourse completion tasks (DCTs) focus on illocutionary competence rather than sociolinguistic competence, a modified version of a DCT was created to target sociolinguistic competence. The modified DCT employs speech acts as prompts and asks respondents to write about a situation in which a given speech act would be appropriate.
