The HTC One SV features a 4.3-inch WVGA Super LCD2 display. That is not even close to Retina, but still works out at a very decent pixel density of 217ppi. With not that many pixels, the dual-core 1.2GHz Snapdragon S4 Plus should not have much trouble with fluid performance. There is 1GB of RAM, 8 gigs of internal storage and Beats Audio support. Moreover, at 4.3 inches this device would be great for one-handed use.
