About - John Resig - JavaScript Programming

John Resig. John Resig is an American software engineer and entrepreneur, best known as the creator and lead developer of the jQuery JavaScript library.

John Resig - Wikipedia

I have created a jquery plugin that does the same but without any use of javascript except the actual declaration to fill a template. You have for each loops here in the markup, I was trying a different approach in that if a template is bound to a single object it is filled once, if bound to an array of objects it is filled for each object.

John Resig - JavaScript Micro-Templating

Also, Low Pro for jQuery is cool, too. Dan Webb (Low Pro's author) is one of the members of the core Prototype team now, and he was the tech editor (I believe) of John Resig's JavaScript book. As for inheritance, I find that most often I just don't use it. Even in JavaScript programs that are thousands of lines.

John Resig - Simple JavaScript Inheritance

And just like jQuery, Resig presents a solid base by describing how to write reusable, unobtrusive, object-oriented JavaScript code. Then, he gets right to it by providing chapter after chapter of real-world examples of how to build useful stuff from this base. While he doesn't use jQuery in his code examples, per se, along the way you will learn

Pro JavaScript Techniques by John Resig - Goodreads
