It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Adrian Tomine's latest book *Killing and Dying* collects issues #12-14 of his series *Optic Nerve* and comprises six stories, almost all of which are superbly written/drawn. I'll get the one story I didn't love out of the way first: *Translated*, *From the Japanese*, which reads like a prose poem about a memory from long ago being related from a mother to her child.
