By examining the effects of different institutional design features, Locating the Proper Authorities helps us understand the variety of influence mechanisms through which international institutions shape the interaction of policy initiators and ratifiers. Daniel W. Drezner is Assistant Professor of Political Science, University of Chicago.

### Project MUSE - Locating the Proper Authorities

In Locating the Proper Authorities, some of the most promising theorists attack these questions from a new perspective, analyzing how foreign policy leaders use international institutions to contract, coerce, or persuade domestic opposition groups into acquiescence. Using constructivist, game-theoretic, statistical, and case-study models, the contributors eschew state-centrism by dividing the relevant actors into policy initiators and policy ratifiers.

Site selection indicates the practice of new facility location, both for business and government. Site selection involves measuring the needs of a new project against the merits of potential locations. The practice came of age during the 20th century, as governments and corporate operations expanded to new geographies on a national and international scale.
