It is a bit difficult to follow at times, obviously the more you know about classical economics (the economics Marx used as a springboard for his own analysis) and philosophy the better. The book fills in some detail on the philosophical background that Marx and Engels grew up in, but leaves out some of the important economic details.

It combines readability with intellectual rigour and distils more than a quarter of a century of Thomas Sowell's research and thought on the philosophical and economic doctrines of Karl Marx. Its central theme is that Marxian philosophy must be understood before Marxian economics can be defined. The book discusses Marx's ideas, including his philosophy of history, concept of capitalist "exploitation", morality and business cycle theory.
