New Portable Drones 2018 Autel

January 11, 2018 At CES 2018, Autel Robotics USA announced its new flagship aircraft line, the EVO. EVO is a portable camera drone with foldable arms and a sleek, compact form factor. We're incredibly excited about this product, and after showing it off at CES, are eager to get it out into the wild for our customers to enjoy.

Autel Robotics Announces New Aircraft EVO at CES 2018 ...

Just as GoPro announces the end of its participation in the consumer drone market, Autel Robotics, a Washington State-based drone manufacturer has introduced its new foldable drone called the EVO, seemingly taking GoPro Karma's place in the DJI-dominated consumer drone marketplace. In keeping with recent drone designs from its competitors, Autel Robotics' EVO features foldable arms that make the drone easy to carry with you wherever you go.

Autel Robotics Adds the New Portable EVO to Its Drone Lineup

New Portable Drones 2018 — Autel Robotics EVO 4K 60fps Drone KiiToys Camera Drone with Spy Camera – X007 Quadcopter HD Camera 720p 2MP, 6 Axis Gyroscope, 7.4V Battery, 3D Flip Roll, 4 Ch 2.4 ghz Long Range (2018 Version)

New Portable Drones 2018 — Autel Robotics EVO 4K 60fps Drone

The drone can be controlled with the Autel Explorer App on both iOS and Android — or with a controller that also has a 3.3 inch OLED screen that streams the drones viewpoint live in 720p resolution. Based in Washington state, Autel is a relative newcomer to the drone scene — we included them in a list of new drone companies to watch in 2016.

The Autel EVO packages 60 fps 4K video in a compact ...

CES 2018 Launch of NEW Autel Robotics EVO Compact Drone. A Drone that EVOLVES with a range of over 7KM (4.3 miles). 30 Minutes Flight Time.

New Autel Robotics EVO Compact Drone

The Autel Evo is capable of reaching speeds of up to 65 feet per second, while the drone itself is capable of remaining in range from the pilot for about 4.2 miles! Intelligent Flight Modes. The drone has some pretty useful flight modes, including GPS and object tracking.

Autel Evo The New Foldable And Portable Drone

At the time of writing this review on the Autel Evo, there hasn't been a launch date yet, but it is set to come out some time in 2018, and will be around \$1,000, which in my opinion, the drone is well worth the price due to all of the nice features it has.

AUTEL EVO THE NEW FOLDABLE AND PORTABLE DRONE ...

In early 2018, Autel announced that they would be releasing the Evo later this year (it's already out at the time of this post). Soon after, DJI announced their own new drone, the Mavic Air and while provide other articles comparing those 2 as well as the Evo to others, let's focus entirely on it here.

It's described as a backup on-set solution (BOSS), and is designed to work with a companion Copilot BOSS app to allow users to review their drone footage on a smartphone or tablet, negating a separate laptop. The device is expected in the first half of 2018 with a US retail price of \$350. Head to the official website for more.

CES 2018: Year of the Drone? | Digital Camera World

Autel showed off their all new drone Evo, which was a 4K 60 fps foldable quadcopter at CES in January 2018. The Evo drone was expected to give tough competition to the DJI Mavic Pro . While many experts were of the opinion that Evo is not the best in any way, its features would definitely have given a stiff competition to DJI.

Autel's Portable Drone Evo - Will it be a Competitor to ...

The Autel Evo is being offered at \$999. It claims a much longer range than the Parrot model and is probably more comparable to the DJI Mavic Pro. Autel has gained a small following among those who want a reliable camera drone, but for whatever reason don't want to buy DJI equipment. Auto Evo Folded and Unfolded

New Consumer Drones for Summer 2018, Parrot, Autel and DJI ...

Autel Robotics announced its long-awaited EVO II series drone at CES 2020 in January, promising vast improvements over the original EVO model launched back in 2018. Its most notable feature is a modular camera system, offering three models that cover a range of features that meet different users' needs, from consumers to professionals.

Review: The Autel EVO II is a solid drone and an ...

With its modest price point, the Mavic Air has quickly become one of the most popular drones and will probably close 2018 as the best-selling of the drones that were released this year. Despite compromises made in flight time and transmission range, the Mavic Air is still an impressive mid-market drone.
