Transmission Parts and kits

A car needs a full working transmission (or gearbox) in order to allow the vehicle to change gears, but the inner workings of a vehicle differs greatly between a manual transmission car and an automatic transmission car. A manual car is recognisable from the inside, as it contains a clutch pedal, which is used to change gears, as well as a gear shift stick between the two front seats, which offers full control of the car and between 5-6 gears and reverse.
