U-Line Undercounter - US Appliance

ICE CUBE THICKNESS Your U-Line Clear Ice Maker uses advanced technology to make ice that is crystal clear. This technology cascades a flow of water over a chilled ice mold that is mounted vertically so no water sits in it. Because of this ice making technology, clear ice cubes differ significantly from regular ice cubes.

U-Line Corporation is a North American manufacturer of upscale undercounter refrigeration products, primarily intended for residential use with fast ice production and minimal electricity use. U-Line was founded in 1962 by Henry Uihlein who was the first to patent and bring to market an automatic stand-alone undercounter residential ice maker.

U-Line Corporation - Wikipedia

Just empty the ice bin, turn the switch to "Clean" and add the U-Line cleaner fluid after water reservoir fills. In approximately 45 minutes, the ice maker has automatically completed a series of cleaning and rinsing cycles and is ready to start producing ice once the switch is turned to the "ice" position. Quietest ice maker in its class.
