First, the WASI-II scores are converted to a scaled-score metric per Table A.2 in the WASI-II Manual. The converted scores then replace the scaled scores of the corresponding subtests on the WAIS-IV to derive the new composite estimates. Table 1 contains the composite scores calculated using the WASI-II substitution.

WASI-II Technical Report #2: Using the WASI-II with the ...

The WASI-II is initially scored by converting the test takers raw score into a scale score. The scale score represents a common scale that allows for a quantitative comparison between a population of students. From there, the scale score is transformed into a composite score. For example, a composite score on the WASI-II could look like a numerical value of "90-109".
