### Why Women Kill Homicide And

Traditional homicide indicators are based on male violence - and do little to predict when, or whom, women will kill. Vickie Jensen shows that gender equality plays an important role in predicting female homicide patterns. Jensen's analysis of the occurrence of women's homicide reveals that lethal violence is most likely when severe gender inequalities exist in the family group.

### Why Women Kill (Official Site) Watch on CBS All Access

Women generally appeared to be more reactive than men in their violent acts, much of the time killing someone they had previously been victimized by. More of the time, they killed someone they knew well, most often male — an intimate partner, a family member, or a male acquaintance — and almost always in their or the victim's home.
