Zika: The Emerging Epidemic 1, McNeil, Donald G. - Amazon.com

The journey taken by Zika virus from Africa, across the Pacific, to the World Health Organization-declared Public Health Emergency of International Concern in February 2016 is chronicled by New York Times writer Donald G. McNeil, Jr., in *Zika: The Emerging Epidemic*. The book starts with the discovery of Zika virus in 1947 and traces the early research on human infections, the 2007 outbreak in Micronesia, the 2013 outbreak in French Polynesia, and the long 2015-2016 epidemic wave of Zika ...
